**...at MI, we've got your
six...**

Parent company Midland Instruments Ltd, Canada's only
Platinum Garmin Dealer, G950 Metro III Installation
pictured above.

Professional and Honest Service since 2008, now available
in London CYXU and Collingwood CNY3.

We Want Your Thumbs Up

In case you didn't know, we're pilots too. We know what it means to "have your six" so when you're in the clag and the going gets tough, we're happy to be right there with you. More than anything, when we help you get home, we want your thumbs up. Keep telling us your stories, we love hearing about them.

Our Investment Into our Services

We invest in our people, and our equipment. You'd be surprised to know what we have in test equipment to get your job done right the first time. Just think, the test we perform for you may not even cover the cost of calibration of our test equipment! Good thing we book them often!

What some of our customers have to say...

"I would like to formally thank you and your team for the exceptional work done on my aircraft. The retrofit panel looks better than new, modern, uncluttered and ergonomically refined."

Robert D Olds, OPPs MMGR/Chief Pilot, Arctic Financial Ltd.

"I give Midland Instruments and its employees a 5/5 star rating. I was very impressed with the process and the outcome and I will continue to take my Comanche to Vince and also refer all of my aviation friends to him. Thanks again Midland Instruments for finally being a company that I can fully trust!"

Kyle Freiburger, Air Canada Pilot.

Key Offerings

Our core strength in Avionics integration leverages our ability to perform the most difficult tasks. Our deep understanding of first principle electronics makes us the best at what we do. Add annuals, STCs, manufacturing and in-house training capabilities and you get a well-rounded service provider able to help you navigate through today's incredible line of ever evolving aviation products.

Key Clients

Here are but a few of our existing clients:

- Voyageur Aviation Corp
- M7 Aerospace LP
- Perimeter Aviation LP
- Cargojet
- And many more...
